CRABTREE IN BLOOM ON MECHANIC ST.

RETURNING TO THE FUTURE

All the buds that were preparing to sleep until spring have been jolted back to life as the town now becomes the colors of April and May. This sampling of photos were taken near the water and back a few blocks. They bear a noticeable similarity. Trees that bear the black/brown leaves killed by the salt in the hurricane air, now are half April's yellow green with new leaves. The little cherry tree, on the cover, is a beautiful cherry pink and it grows only a few yards from the corner of North St. where it took the full force of the storm. There is new green growth on Mechanic St. and in the yards dogwood begins to bloom. What will be the result in this

Special Town Meeting?

"IN THE AIR AGAIN"
MATTAPOISETT SELECTMEN'S MEETING
SEPTEMBER 17, 1991-by VIRGINIA MORGAN

No date has been set for a Special Town Meeting; however, two articles were suggested by selectmen last Tuesday to be placed on the next warrant.

The first will seek $6,500 (as the fair cash value) to repay George Randall for damage done to his 1987 truck while carrying out duties for the town during the hurricane. There is no personal insurance to cover the damage, nor coverage through the town's insurance. Possible coverage through a loan from the SBA (Small Business Administration) for hurricane emergency relief was not a viable method, selectmen noted. The board members agreed to support this article on the town meeting floor.

The second article will necessitate having Kathleen Riley obtain 100 signatures to place an article for a proposed septic systerm and house on separate lots. Selectman Daniel O. Mahoney said the board is not obligated to support the article. "It is not uncommon to grant an easement, but it is uncommon to grant an easement for a pipe line under a town road."

Ms. Riley and Edmund Butler sought from the Board of Health permission to run a sewer line from a septic system on one lot to a separate house lot across the street on Angelica Avenue in the Point Connett area. The health board referred the applicants to the selectmen for conditions of approval for an easement. Mr. Mahoney explained that before the board would grant an easement they would consult the Mattapoisett Sewer Board on conditions to place on an easement, if voters approved it.

Selectmen pointed out there has not been any date, even a tentative one, for a special town meeting, but the talk is in the

In other business, selectmen:

DISCUSSED another hurricane aftermath concern. This one is the large granite blocks that had previously been placed at the end of the town beach parking lot in the approach to the Barstow Wharf. These were moved from their place during the hurricane, and Selectman Mahoney noted there is substantial work to be done in the area.

"In my opinion, I would like to see some other way to deter use of the Barstow Wharf rather than the blocks, where no one can drive on the pier. In my own view, this is not a good use of the pier."

Selectmen Chairman John DeCosta and Selectman Paul E. Lambalot agreed with Mr. Mahoney in their feeling there should be access to the wharf. The board directed Executive Secretary Carol Adams to inform Highway Surveyor Wesley Bowman not to do anything with the blocks until a different type of barrier can be discussed.

The large granite blocks were originally placed there to deter cars from driving on the pier where there had been a case of someone accidentally driving off the wharf.

"I consider myself lucky for having had the opportunity of working as coordinator for the Council on Aging for the past few months. This has been a rewarding experience." She will remain to help train a new person.

Selectmen accepted Mary Lou's resignation with deep regret, saying, "Although your employment with the town has been short, you have been an asset to the Council office. You have been most professional and courteous in your dealings with not only the seniors of our town, but with your fellow employees. You will be sorely missed. We wish you the very best in your future endeavors."

Council Chairman Evelyn Pursley said the job opening will be advertised for a new coordinator. Information may be obtained from the council office.

On a similar matter regarding the Council on Aging, selectmen were informed of a new member, Susan Drake, and that Eleanor Lynch has been reappointed for a three-year term. The council is having printed a senior newsletter, "HiLines", named by Mrs. Pursley, with member George Avila designing the logo.

Coastline Elderly Services, Inc. informed selectmen the agency's Regional Elderly Nutrition Program received a grant award for its 19th years of operation. "The Nutrition

program in Mattapoisett has proven itself a success within the community, not only providing home delivered meals but also hot, nutritious meals in a warm social atmosphere at Village Court. It has also stimulated community interest in elder affairs, community involvements for the town's elderly, and as an extension of information and referral services that our agency offers to the elderly."

Mattapoisett's assessment for program participation for the current fiscal year is $600. "Every effort has been made to maintain the same level as last year even though we've encountered higher food costs, delivery costs and increased demand for our services", said the agency.

Each fellowship includes a $500 honorarium to be applied to a professional enrichment program of the winner's choice. In addition, selections from the portfolios submitted by the teachers will be published in the Laboratory's Outstanding Teaching Practices Series to be shared with educators in small and rural school districts throughout the region.

Introducing The First Sunscreen For Your Sofa.

It doesn't look like sunscreen. But it is. Because this high-tech film blocks up to 99% of ultra-violet rays. Rays that ruin fabrics and furniture. The way they damage your skin.

LLumar® is a transparent window film that chemically bonds to the glass. It helps prevent fading, but lets light shine through. So LLumar protects what's inside, without blocking your view outside. That's why it's the clear answer.

Call your LLumar dealer for details. And find out what sunscreen can do for your sofa.

Sandwich Beach

There is a surf at Sandwich beach strong enough to hurl rock and gravel at times. This beach bordered by the Cape Cod Canal takes a beating in the winter months. There has been a sizable planting of dune grass on the approach to the shore to stabilize these dunes which guard the giant Sandwich marsh behind. This beach begins the marvelous stretch of sandy shore that reaches all the way to Provincetown.

The Magic of Lyn

On Sunday, October 6th, Smith Mills Christian Congregational Church is pleased to present "The Magic of Lyn". Lyn's dynamic brand of illusion has taken her from the glitter of Atlantic City to the grandeur of New York's Lincoln Center. What makes this performance most unique is that this young woman is one of the few female illusionists in the world. She uses a combination of music, color and dance with her spectacular illusions to create "impossible possibilities". This high

Awareness Hour

PARENTING AND STEPPARENTING CHILDREN OF DIVORCE

How can parents facing separation, divorce or remarriage best address their children's needs throughout all the family changes? This question will be the focus of an awareness hour sponsored by the Marion Center Associates Foundation entitled "Parenting and Stepparenting Children of Divorce", to be held on Saturday, October 5th, from 10:00 a.m. to 12:00 noon at Saint Gabriel's Parish Hall, 124 Front Street in Marion.

The awareness hour will feature a talk and discussion facilitated by Dr. Peter Donnelly of the Marion Center Associates. Discussion will include how to talk with your child about divorce, how to introduce significant others to your child, and how to handle the introduction of a stepparent into the family.

"Separation, divorce and remarriage are enormous changes for any family", comments Dr. Donnelly. "This awareness hour will give parents some insight into children's developmental needs at different ages, and we'll discuss how to best attend to these needs throughout the many changes and adjustments. It will be a good opportunity for parents to ask questions, participate in discussion and get some support."

The awareness hour will be free of charge. For more information call 748-2850.

Veterans' Update

VA OFFERS TOLL-FREE SERVICE FOR THE HEARING IMPAIRED

The Department of Veterans Affairs (VA) has set up a national toll-free telephone number accessible by a telecommunications device to assist deaf and hearing-impaired veterans and their families.

Veterans with this special equipment, known as TDD, can call 1-800-829-4833 for information on VA benefits and programs.

Based at the Chicago VA Regional Office, the service is available from 8 a.m. to 4 p.m. CDT Monday through Friday. Calls received after normal business hours and on weekends and holidays will be returned the following business day.

VA REMINDS VETS TO PROVIDE SOCIAL SECURITY NUMBERS FOR BETTER SERVICE

The department of Veterans' Affairs (VA) is reminding veterans and their dependents that it needs up-to-date information from them to ensure continued payment of pensions or parents' dependency and indemnity compensation. Both programs assist eligible beneficiaries in financial need, as measured by income and net worth.

Disclosure of social security numbers, mandated by the Omnibus Budget Reconciliation Act of 1990, is directed at preventing overpayments to beneficiaries who may be receiving benefit payments from other agencies or who may be underreporting their annual income. A recent cross-check of VA and Internal Revenue Service (IRS) records enable VA to identify $338 million in unearned income, apparently reported by $116,000 beneficiaries in establishing eligibility for VA payments. Later this year VA will begin receiving wage and pension income information from the Social Security Administration.

John Manjiro Festival

IN FAIRHAVEN CENTER OCT. 6

Popular Japanese foods, a demonstration of arts and crafts including Origami (paper folding), Shodo Brush (calligraphy), flower arrangements and Bonsai and special activities for children will be included in the Third Annual John Manjiro Festival, scheduled for Sunday afternoon, October 6th, in Fairhaven's center.

The festival is sponsored by the Fairhaven/New Bedford-Tosashimizu Sister City Committee. Cheryl Moniz is chairwoman of the event.

The Third Manjiro Festival is a continuation of events commemorating the 150th anniversary of the rescue of a young Japanese fisherman, Manjiro Nakahama, by a whaler captain from Fairhaven, William H. Whitfield. Both Whitfield and Nakahama have become folk heroes in their home countries as symbols of an increasingly close relationship between the United States and Japan.

The October 6th event will tender special honors to Robert Whitfield, great-great grandson of Captain Whitfield, and to Kiyoshi Izumi, Mayor of Tosashimizu City, Japan, birthplace of Nakahama. Accompanying Mayor Izumi to Fairhaven for the festival will be about 25 men and women from Kochi Prefecture and Tosashimizu, some of whom will participate in the entertainment program.

Prior to the opening of the outdoor festival at noon, the Japanese visitors will attend the 10:30 a.m. service at the Unitarian Me-

During the festival, which will open at noon, Japanese restaurants and other vendors will prepare on site and serve popular Japanese dishes. American favorites also will be sold. For children, there will be the Magical Candy Man from the Japanese Pavilion in Disney World, catching gold fish, dragon balloons, Kabuki face painting and fish painting.

Entertainment features will include a performance of Ashizuri folk dancing by Japanese visitors, a demonstration of flower arrangement and illustrations of Haiku, a form of Japanese poetry. Mayor Izumi and his assistant will join Jerry Rooney of Acushnet in singing "Ah Manjiro", a popular Japanese song.

There will be a special exhibit by 10 young "American Ambassadors", teenagers selected for a two weeks' trip to Tosashimizu as guests of Kochi Prefecture and Tosashimizu City. The trip, which ended last month, was another event celebrating the Sesquicentennial of Manjiro's rescue by Captain Whitfield.

A special entertainment feature during the festival will be a Karaoke setup, a popular amusement in Japan and now the rage in America.

PEN PAL PROGRAM

Science-by-Mail, an innovative program that pairs children in grades 4-9 with pen pal scientists, is accepting applications for the 91-92 school year through October 15th. A partnership between students and scientists, Science-by-Mail encourages young minds to think creatively and develop problem solving skills while providing young people with vital role models.

A Science-by-Mail member receives a science activity packet three times a year. Designed by science and education professionals, each packet contains a science challenge, and the experiments and tools to solve it. Challenges have ranged from the disposal of waste in outer space to the physics of ice cream. Children create a solution and send it to the Museum of Science. The solution is then forwarded to a scientist pen-pal who writes to the children, discussing their ideas, and offering advice and suggestions for further exploration.

"Science-by-Mail's non-competitive and cooperative nature allows students to tailor the program to their personal abilities and interests", says Thea Sahr, Science-by-Mail program manager.

The membership fee for 1991-1992 is $44.00. For more information call Thea Sahr at (617) 589-0438 or 1-800-729-3300 or write to Science-by-Mail, Museum of Science, Science Park, Boston, MA 02114-1099.

FREE PROSTATE CANCER SCREENING

Men over 45 years of age are encouraged to take advantage of a free prostate cancer screening which is being sponsored by St. Luke's Hospital of New Bedford in cooperation with TAP Pharmaceuticals, Inc.

The screening will be held on Thursday, October 3rd, from 6:00 to 8:00 p.m. in St. Luke's Oncology Clinic. Appointments are needed and can be made by phoning 997-1515, extension 2709, weekdays, between the hours of 9:00 a.m. and 12 noon.

The screenings will be performed by Albert Signorella, M.D., Robert J. Lang, M.D., Robert B. Higgins, M.D., Sidney Feldman, M.D., and Michael J. Corrigan, M.D., all physicians on St. Luke's Medical Staff who specialize in urology. Physicians and hospital staff are volunteering their time to provide the free screenings.

Each year one out of eleven men in the U.S. is diagnosed with prostate cancer and approximately 30,000 will die of the disease. Because the symptoms do not usually appear until the late stages, early detection through an annual medical examination is recommended for men over 40 years of age. Symptoms usually involve problems with urination, such as pain, frequency or difficulty.

Home Health Care

Nurses and other home care professionals from St. Luke's Home Care Services will be available at the North Dartmouth Mall on Saturday, September 28th, as part of a health fair coordinated and promoted by WBSM.

St. Luke's Home Care Service provides a wide range of professional health care in the home. Specialty staff include visiting nurses; home health aides; physical, occupational and speech therapists; and medical social workers. In addition, as the only home care agency in the area affiliated with a hospital, the staff can tap the resources of a wide range of consultants such as dietitians, psychiatric nurses or specialists in caring for the elderly.

Hospice care is also provided by St. Luke's Home Care Services, and a Bereave-

With the expertise and full-time services of Dr. Brown, residents can take advantage of advanced testing and treatment close to home, including pacemaker implants and follow-up care. The latest thallium pharmacologic stress testing, now being performed at major university hospitals, will be available at Tobey with the addition of the cardiologist. Particularly helpful for vascular surgery patients, the pre-operative test evaluates the effects of physical activity on the heart by simulation when patients are unable to walk.

Dr. Brown brings to Tobey his extensive training in echocardiography. Patients can now undergo at Tobey an innovative and semi-invasive test for heart valve assessment called transesophageal echocardiography. The procedure is similar to endoscopy and permits the cardiologist to visualize the heart, the aorta, and large blood vessels in the center of the body to aid in diagnosing valvular diseases. Dr. Brown is an expert and co-author of a textbook chapter on Transesophageal Color Flow Imaging, a subject on which he recently presented a research paper at the Washington, D.C. conference of the American Society for Echocardiography.

Dr. Brown comes to Tobey from University of Pennsylvania Medical Center in Philadelphia. His postgraduate training includes a cardiology fellowship training program at the Likoff Cardiovascular Institute of Hahnemann University Hospital in Philadelphia. Dr. Brown earned his M.D. and completed an internship and residency in Internal Medicine at the State University of New York Health Sciences Center. He was then Chief Medical Resident in the Department of

the success of last fall's course, George Hampson of the Oceanographic has again organized this series, focusing this time on the management of Buzzards Bay from economic and environmental viewpoints. The five sessions are for local officials and boards, business people, educators and students, concerned citizens, and anyone interested in the health and productivity of the Bay. The series' speakers and topics are as follows: Wednesdays at 7:30 p.m. on the second floor of the Academy's Storer Building.

October 2: Joseph Costa, Ph.D., Buzzards Bay Project Manager, will give the big picture on Buzzards Bay's future based on the Action Steps in the nation's first-completed Comprehensive Conservation and Management Plan.

October 16: Jon Witten, whose firm Horsley, Witten and Hegemann, Inc. consults nationally on water resources and land use planning, will speak on the consequences of good (or bad) planning and how to take effective steps locally to protect Buzzards Bay.

October 30: Peter F. Larsen, Ph.D., research scientist with Bigelow Laboratory of Ocean Sciences in Maine, will share his success in building mutually-beneficial ties with industry, through KARE, a model for others to adapt to their areas.

November 13: Susan Peterson, Ph.D., pioneer in solar aquatic waste treatment and president of Ecological Engineering Associates, will show the practical and ecological aspects of treating waste in natural systems.

November 20: Steven Bliven, assistant director of Massachusetts Coastal Zone Management, will outline the Commonwealth's role in helping Buzzards Bay people make the new Action Steps in the COMP a reality.

A Treasured Heritage

WHALING MUSEUM OPENS NEW EXHIBIT

The New Bedford Whaling Museum opens a new exhibit, "A Treasured Heritage: Highlights from the Whaling Museum Library", on September 25th. It runs until January 15th.

Included in the exhibit will be books, maps, logbooks, broadsides, prints and paintings which tell the story of New Bedford's commercial and maritime history and its ethnic, cultural and social diversity.

The Ann Alexander, whose painting is displayed, started her maritime life as a merchant vessel trading between New Bedford and European ports. In 1820 she was converted to a whaler and sailed profitably for the next 30 years until she was struck by a whale and sank. "Crash! comes Moby Dick himself", said Herman Melville when he heard of the affair.

Melville's whaling classic first appeared 140 years ago. A section of the exhibit will feature editions of Moby-Dick and sources the author used in composing the novel.

There is a selection of narratives of foul deeds, massacres, mutinies and murders, as recorded in eyewitness accounts.

William Bradford's seldom-seen The Arctic Regions, a book of photographs of the eastern Arctic, as well as illustrated letters by R. Swain Gifford are on view.

There are items relating to Paul Cuffee and John Mashow, locally prominent African-Americans of the 19th century, as well as an early account book of Joseph Vera, New Bedford's first merchant of Azorean background.

This exhibit celebrates the 10th anniversary of the 1981 opening of the Museum Library Building. Here for the first time the collection of books, maps and documents relating to New Bedford and whaling and the Old Dartmouth area's history were brought together in a secure, climate-controlled environment, easily accessible to outside scholars and Museum personnel.

A 4:30 p.m. talk on September 25th by Louis Tucker, "The Historical Society Revolution: Reflections of an 'Old Goat'" will open the exhibit. Mr. Tucker, Director of the Massachusetts Historical Society, will discuss the changes in historical societies' goals over the past three decades and the implications for the future.

The Whaling Museum is located at 18 Johnny Cake Hill. It is open Mondays through Saturdays from 9 a.m. to 5 p.m. On Sundays the hours are 1 to 5 p.m. For further information call the Museum at 997-0046.
